Please post your Lost/Found pets here Posted by Webmaster - 29 Mar 2011 08:08
By using the editor when typing in a message in this section of the forums you can embed a map to show where you lost/found a pet. You'll also notice you can insert an image link or use the attachment section to add a photo attachment. Just click 'Add File' button just below the text box when typing a message. When you click 'Submit' the file will be uploaded.
Just click the "New Topic" button to get started.
If the pet you are posting about is found, please edit your post and put [HOME!] in the subject line.
Thank you and good luck finding pets/owners!
